UNIQUE GARDENING GOODS OFFERED AT FLOWER & GARDEN SHOW

BOISE, ID - With the expansion of products and services available to the home gardener today, the hobby of gardening scarcely resembles what it was in Eden. Discover the latest goods to enhance the gardening experience at the 14th annual Boise Flower & Garden Show. Attendees can shop everything from the practical essentials to those for pure enjoyment, with items ranging from tools to garden art available for purchase. Here are some of the highlights:

HOEDAG

Booth #415

This is the perfect digging tool for preparing soil, planting and weeding. Each hoe•dag tool is made by hand by the owners in Lewiston, Idaho. The carbon steel blade is heat-treated to Rc-45 for exceptional strength and toughness. The handle is made from seasoned beech. These make great gifts for gardening friends and family.

TMB CERAMICS

Booth #203

These unique garden sculptures are made of stoneware clay, and will not absorb water, so they can stay outside all year long. The garden sculptures are large beads stacked on an electrical conduit pipe. There is some rebar in the design along with other elements to structurally support them in the ground. A gorgeous addition to any garden!

CUSTOM COPPER & IRON

Booth #500

Find beautiful, one of a kind, extremely unique, sculptures for your garden at Custom Copper & Iron. From metal sculptures on stakes, ready to dress up your garden, to wall sculptures beautiful enough to hang inside or out, there is something for every! One of their most unique items is the high heeled shoes. No two are alike but, all are sure to be a talking point in your garden or home!

THE LOUNGE COLLECTION

Booth #607

Like bugs? Even if you don't, we bet you'll like these lovely hand-crafted glass and metal sculptured bugs. This is their Boise debut, traveling all the way from Salt Spring Island, B.C.

ORGANIC/SUSTAINABLE/GREEN

While the show is not specifically promoted as a "Green Show", many of our exhibitors offer organic products, sustainable practices, water conservation services, products made from recycled products, native plants, and "green" services. We invite you to check us out. We think you will be surprised!
